PM				
13:10-14:10	<b>Lunch</b>			
Auditorium 14:10-14:40	<b>Plenary Session Keynote</b> <u><a href="#">Navigating through history and charting the future: A 2024 update on pressure ulcers/injuries</a></u> Presented by <b>Prof. Dr. Dimitri Beekman</b> , Department of Public Health and Primary Care, University Centre for Nursing and Midwifery, Skin Integrity Research Group (SKINT), Programme Chair, Master of Science in Nursing and Midwifery, Associate Editor, International Journal of Nursing Studies  <u>Description:</u> In this keynote presentation, participants will embark on a journey through the historical evolution of our understanding and management of pressure ulcers/injuries. We will explore key milestones, breakthroughs and paradigm shifts that have shaped today's practice. The lecture will provide a comprehensive update on the state of pressure ulcers in 2024 and offer insights into the latest research, technologies and approaches to prevention and treatment. By examining the past and the present, we will also look to the future and discuss the anticipated trends and innovations that hold promise for the future of pressure ulcer care. This presentation aims to provide attendees with a holistic perspective that combines historical context with the latest advances to enhance their knowledge and strategies in dealing with this critical healthcare problem.
